

Urban Agenda Brings Together Turkish Municipalities

17 July 2024

The Urban Agenda was held with the participation of municipal representatives from all over Türkiye as we accelerate towards European Mobility Week!

During the third Urban Agenda meeting, which saw active participation for nearly three hours, we gathered with over 300 municipal representatives. The meeting also featured contributions from leaders of the Union of Municipalities of Türkiye (UMT) and SUMP Türkiye experts, with inspiring projects presented by the Metropolitan Municipalities of Ankara, İzmir, and Denizli.

This year, we are determined to crown European Mobility Week with qualified, lasting projects and bring the Mobility Awards to Türkiye after the week. We are thrilled to see municipalities from all across Türkiye sharing this goal!

Let's keep sustainable urban mobility on our cities' agendas throughout the year and [#LiveTheCityTogether](#) in shared public spaces!
