

SUMP Türkiye Webinar 13

10 October 2024

On Thursday, 10th October, the 23rd SUMP Türkiye Webinar, titled "Sustainable Urban Logistics," will be held.

The webinar will focus on the sustainable planning and implementation of urban logistics operations from environmental, economic, and social perspectives, with examples shared from both Türkiye and around the world.

The session will feature valuable contributions from experts including Pedro Gomes, Environmental Planning Systems Specialist; Dr. Volkan Recai Çetin, SUMP Türkiye Team Leader; Katy Huaylla, Urban Transport Expert at Rupprecht Consult; Ioanna Kourounioti, Transport Modelling Expert at Panteia; Prof. Dr. Mehmet Tanyaş, Head of the International Trade and Logistics Department at Maltepe University; Serkan Uçar, Head of the Railway Construction Department at the Directorate General of Infrastructure Investments; and Hassan Hussin, Transport Expert at Rupprecht Consult.

The key topics of the 23rd SUMP Türkiye Webinar will cover:

- Fundamentals of Urban Mobility, E-commerce, and Demand-driven Logistics
 - Urban Logistics Challenges in Türkiye
 - Policies and Planning for Sustainable Urban Logistics

- Emerging Trends in Urban Logistics
- Urban Transport Initiatives in Türkiye
- Planning for Sustainable Urban Logistics

You can watch our SUMP Türkiye Online Trainings on the SUMP Türkiye YouTube channel following the session and access the training materials on our website. Stay tuned for updates! [#SustainableUrbanLogistics](https://www.skupturkiye.org.tr/en/)
